About Outlook Therapeutics, Inc.

Outlook Therapeutics is a biopharmaceutical company working to achieve FDA and European Commission approval for the launch of ONS-5010/LYTENAVA™ (bevacizumab-vikg or bevacizumab gamma) as the first approved ophthalmic formulation of bevacizumab for use in retinal indications, including wet AMD, DME and BRVO. If ONS-5010 ophthalmic bevacizumab is approved, Outlook Therapeutics expects to commercialize it as the first and only FDA and/or EC approved ophthalmic formulation of bevacizumab for use in treating retinal diseases in the United States, EU, United Kingdom, Europe, Japan, and other markets. As part of the Outlook Therapeutics' multi-year commercial planning process, Outlook Therapeutics and Cencora entered into a strategic commercialization agreement to expand the Outlook Therapeutics' reach for connecting to retina specialists and their patients. Cencora will provide third-party logistics (3PL) services and distribution, as well as pharmacovigilance services and other services in the United States.
