Outlook Therapeutics® to Present at the H.C. Wainwright 26th Annual Global Investment Conference

September 3, 2024

ISELIN, N.J., Sept. 03, 2024 (GLOBE NEWSWIRE) -- Outlook Therapeutics, Inc. (Nasdaq: OTLK), a biopharmaceutical company that achieved regulatory approval in the European Union and the United Kingdom earlier this year for the first authorized use of an ophthalmic formulation of bevacizumab for the treatment of wet age-related macular degeneration (wet AMD), today announced that Russell Trenary, President and CEO of Outlook Therapeutics will present at the H.C. Wainwright 26th Annual Global Investment Conference being held September 9-11, 2024 in New York, NY.

In addition to the presentation, management will be available to participate in in-person one-on-one meetings with qualified members of the investor community who are registered to attend the conference. For more information, please visit the conference website.

A video webcast of the presentation will be accessible for viewing on-demand beginning on Monday, September 9, 2024, at 7:00 AM ET for those registered for the event and will be accessible on the Events page in the Investors section of the Company's website (outlooktherapeutics.com). The webcast replay will be archived for 90 days following the event.

About Outlook Therapeutics, Inc.

Outlook Therapeutics is a biopharmaceutical company focused on the development and commercialization of ONS-5010/LYTENAVA ™ (bevacizumab-vikg; bevacizumab gamma), for the treatment of retina diseases, including wet AMD. LYTENAVA™ (bevacizumab gamma) is the first ophthalmic formulation of bevacizumab to receive European Commission and MHRA Marketing Authorization for the treatment of wet AMD. Outlook Therapeutics is working to initiate its commercial launch of LYTENAVA™ (bevacizumab gamma) in the EU and the UK as a treatment for wet AMD, expected in the first half of calendar 2025. In the United States, ONS-5010/LYTENAVA ™ is investigational, is being evaluated in an ongoing non-inferiority study for the treatment of wet AMD, and if successful, the data may be sufficient for Outlook to resubmit a BLA to the FDA in the United States. If approved in the United States, ONS-5010/LYTENAVA™, would be the first approved ophthalmic formulation of bevacizumab for use in retinal indications, including wet AMD.
